

# MODEL 6800 Bus/Coach

The top-of-the-line 6800 Seat features self-leveling air suspension with independent air height adjustment. With numerous standard features, this seat offers functional and appealing performance.

# Features

ISRI® seats feature superior technical design, ensuring long-lasting performance and comfort. All seats meet international quality and safety standards.

## Back Rest

Adjusts in 2 degree increments to fit any body contour. Strong polyurethane back prevents upholstery wear and tear.

## Air Lumbar

Provides back support with upper and lower settings, ensuring comfort during lengthy sitting.

## Air Side Bolster

Offers desired side support to avoid body side-sway.

## Seat Cushion

Provides optimum comfort and support for any any leg shape or size. Six position adjustment 2 inches total.

## Adjustable Seat Tilt

Allows entire seat to tilt to four separate positions.

## Self-Leveling Air Suspension

Sets automatically when user sits down for optimal height and weight positioning. 40mm upward and 35mm downward strokes.

## Air Height Adjustment

Moves seat up or down independent of other seat settings. 4 inches total travel.

## Fore/Aft Adjustment

7 1/2 inches total travel.

## Adjustable Shock Absorber

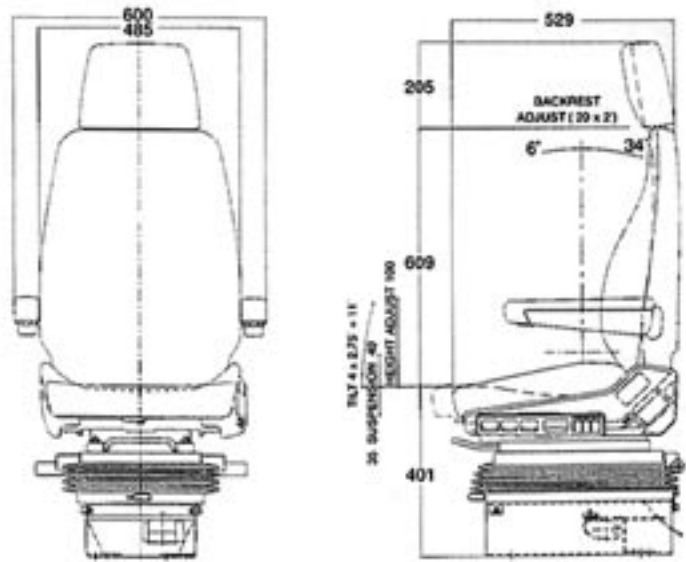

Choose stiff or soft ride infinitely.

## Quick Air Release

Exhausts all air from suspension, allowing for easy entry/exit. Returns seat to previous position.

## Isolator

Reduces horizontal vibration, ensuring smooth ride.

SHOWN WITH • SEAT SUSPENSION AT MID-RIDE • SEAT HEIGHT ADJUSTED LOW POSITION  
DIMENSION IN MM (with standard 5 inch riser)

# Options
